

Amendments to the Specification:

On page 4 of the specification, please amend the paragraph from line 6 to line 13, as follows:

The articles "Manufacture of Embedded Integrated Passive Components into Low Temperature Co-Fired Ceramic Systems," Scrantom et al., 1998 International Symposium on Microelectronics, 1998, pp. 459-466, "3D-Integration of Passive RF-Components in LTCC," Muller et al., ~~(DO YOU KNOW WHERE AND WHEN THIS WAS PUBLISHED?)~~, and "Integrated Passive Components Using Low Temperature Cofired Ceramics," Wersing et al., 1998 International Symposium on Microelectronics, 1998, pp. 193-199, discuss the embedding inductors in co-fired ceramics.
